PRIMARY EXAMINER

Allowable Subject Matter

1. Claims 1-35, are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach and/or suggest "generating a list of pages to retrieve from a database backup; retrieving the pages in the list . . . creating a database view from the database backup . . . copying a transaction log and the retrieved pages into the database view . . .", combined with "performing a consistency check on the database backup by reading all database pages from one of the database backup and the database view." The closest prior art of record (i.e. Cha et al. US# 2003/0061537) teaches database recovery using multiple log disks and backup copies, as well as log processing. However, Cha does not explicitly teach the creation of a database view from the backup database; wherein the view requires less memory space than the database contained in the database backup.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
